

QuickCashier Redemption Kiosk

Features and Benefits

The Anztec Redemption Kiosk is a cost effective secure cash dispensing machine, conceived and designed to be affordable to the smallest gaming site, yet scalable to meet the needs of the largest casino.

Can be supplied as part of a complete cashless gaming solution or can interface with most existing casino data systems.

The ergonomically designed cabinet uses ATM style features, which are easily recognised and accepted by users.

Multimedia capabilities include a 10.4" TFT display and audio prompts through stereo speakers, presenting opportunities for advertising, promotions and greetings.

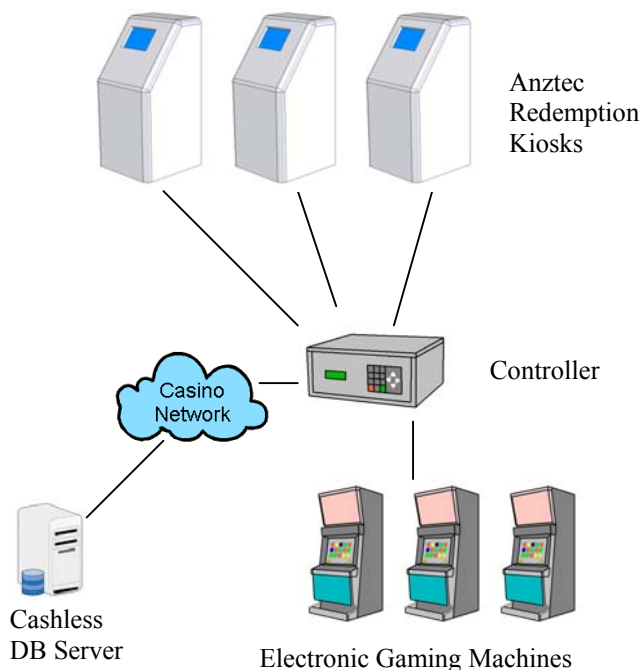

The proprietary electronics enhances protection from external tampering.

The kiosk can be supplied with components to the customer's requirements.

A separate security processor logs all security events with a time and date stamp, even when the machine is disconnected from the mains.

Applications

- Ticket-In-Ticket-Out redemption
- Card Based cashless redemption
- Jackpot Payout system
- Player Club system
- Player bonus programme
- Banknote breaker
- Coin change machine
